The total funding awarded to sponsored projects at UCSB in 2011–12, from July 1 to June 30, was $217 million, of which $1.4 million was funded by the American Recovery and Reinvestment Act (ARRA). ARRA funds provided a one-time funding opportunity through extremely competitive programs run by federal research agencies, most of which were awarded and disbursed in Fiscal Year 2010.
UCSB received $172 million in direct and indirect federal funding, which represents 79 percent of the total sponsored project awards. * Funds in the Indirect Federal category were awarded initially to another institution by the federal government for a multi-institution project, then flowed through for work performed at UCSB.
Extending Innovation

The Office of Technology and Industry Alliances helps establish research and license agreements that support collaboration among university researchers and our industry partners and facilitates the use of university research results in commercial products that benefit the public.

- over 75 invention disclosures per year
- over 600 active inventions
- 1 disclosure per $1.8 million in research expenditures
- 6 new start-up companies per year
- over 50% of inventions are under a licensing arrangement
