IACUC TRAINING CHECKLIST FOR ANIMAL USERS

Mandatory training for all new animal users – Check the box once you have completed the step. If you have any questions on these materials, consult with either your Principal Investigator or the IACUC office.

☐ Prior to beginning the training listed below, email the IACUC office, iacuc@lifesci.ucsb.edu with your name, the name of your Principal Investigator (PI), and the protocol(s) you will be working on. For more information on the required training, refer to the IACUC website at www.research.ucsb.edu/compliance/animal-subjects

Citiprogram Training:
Log on to the external web-based training program at http://www.citiprogram.org. All animal users are required to complete the following two courses:
☐ “Working with the IACUC” course for Investigators, students, and staff (18 sections total)
☐ The version(s) of “Working with… in Research Settings” corresponding to the species you will work with

Animal users working in a laboratory research or teaching setting:
☐ “Minimizing/Reducing Pain and Distress in Laboratory Mice and Rats” for work with rodents
☐ “Aseptic Surgery” for performing surgery on animals

Animal users working with wild animals in the field or at a satellite facility:
☐ “Wildlife Research” for work in the field

Additional training for work with wild animals in the field or at a satellite facility:
☐ For work with wild rodents or birds, read the taxon-specific guideline available on the IACUC website

Project Specific Training:
☐ Read the animal protocol(s). Your PI will provide this.
☐ Read the IACUC Guidelines that are checked on the protocol(s)

Researcher Safety Training:
☐ Complete the “Occupational Health and Safety” form and UC Davis Risk Assessment Tool
☐ Read through the “Zoonotic Diseases” materials on the CDC website
☐ If working in a laboratory setting, complete the EH&S Online Fundamentals of Laboratory Safety Training Course (LS60): https://learningcenter.ucsb.edu/default.aspx

Have your PI confirm below that you have completed the training. Then, contact the IACUC Office at 805-893-5855 or via email at iacuc@lifesci.ucsb.edu to set-up an appointment to drop off the Occupational Health and Safety form and this Researcher Training Checklist in Bio2, Room 1125.
2. Bring this Training Checklist to your appointment; do not put this Training Checklist in the envelope.

Have your PI confirm below that you have completed the training. Then, contact the IACUC Office at 805-893-5855 or via email at iacuc@lifesci.ucsb.edu to set-up an appointment to drop off the Occupational Health and Safety form and this Researcher Training Checklist in Bio2, Room 1125.
2. Bring this Training Checklist to your appointment; do not put this Training Checklist in the envelope.

Work on most animal protocols does require additional in-person training, including:
- A facility orientation of the Animal Resource Center vivaria.
- A Basic Aseptic Surgical Technique Training Seminar with the Attending Veterinarian (AV), followed by a proficiency evaluation with the AV, in order to perform surgical procedures without the assistance or supervision of a trainer or the AV.

Once you have been cleared for working with animals, contact the Animal Resource Center at 805-893-3986 to schedule training.

By signing below, I (the Principal Investigator) certify that the named researcher has completed the above applicable training requirements to work on the protocol(s) listed below. This researcher will not work with live animals on this protocol(s) until I have received notification from the IACUC that they are clear for participation.
