

Does your work involve any of the following?

Human Subjects

Human Subjects Committee (HSC) approval is required.
See [Human Subjects](#)
Contact us at hsc@research.ucsb.edu

Vertebrate Animals

Institutional Animal Care and Use Committee (IACUC) approval is required.
See [Animal Subjects](#)
Contact us at iacuc@lifesci.ucsb.edu

Financial Conflict of Interest

Disclosure and training required by certain sponsors and for research gifts.
See [Conflict of Interest](#)
Contact us at coi@research.ucsb.edu

Export Control

International shipping or travel, use of controlled technology or information, ITAR-controlled items, foreign activities (including visiting scholars).
See [Export Control](#)
Contact us at exportcontrol@research.ucsb.edu

Human Embryonic or Pluripotent Stem Cells

Stem Cell Research Oversight Committee (SCRO) approval is required.
See [Stem Cell Research](#)
Contact Melodie Blakemore at blakemore@research.ucsb.edu

NSF, NIH, or USDA-NIFA Funding

Responsible & Ethical Conduct of Research training may be required.
See [Responsible Conduct of Research](#)

All researchers should be aware of the following:

Research Ethics & Misconduct

All members of the University community are expected to conduct their research with integrity and intellectual honesty. Researchers are expected to pursue the advancement of knowledge while meeting the highest standards of honesty, accuracy, and objectivity.
See: [UC Statement of Ethical Values & Research Ethics – Research Misconduct](#)

Research Ethics Training

Researchers are required to complete the UC system developed Ethics & Compliance Briefing for Researchers every two years.
See [Research Ethics - ECRB](#) and access the training at the [UCSB Learning Center](#)
