# STAR Program and Class Logistics:

- For course descriptions visit: <https://www.research.ucsb.edu/star-class>
- STAR Certificate = Completion of 11 courses
- \*Coursework must be completed within 2 years from the date you begin the course series.*
- \*Exception to 2 year timeframe granted due to pandemic.*
- Email [training@research.ucsb.edu](mailto:training@research.ucsb.edu) for questions and/or concerns
- STAR Class evaluation request will be sent to participants after the class

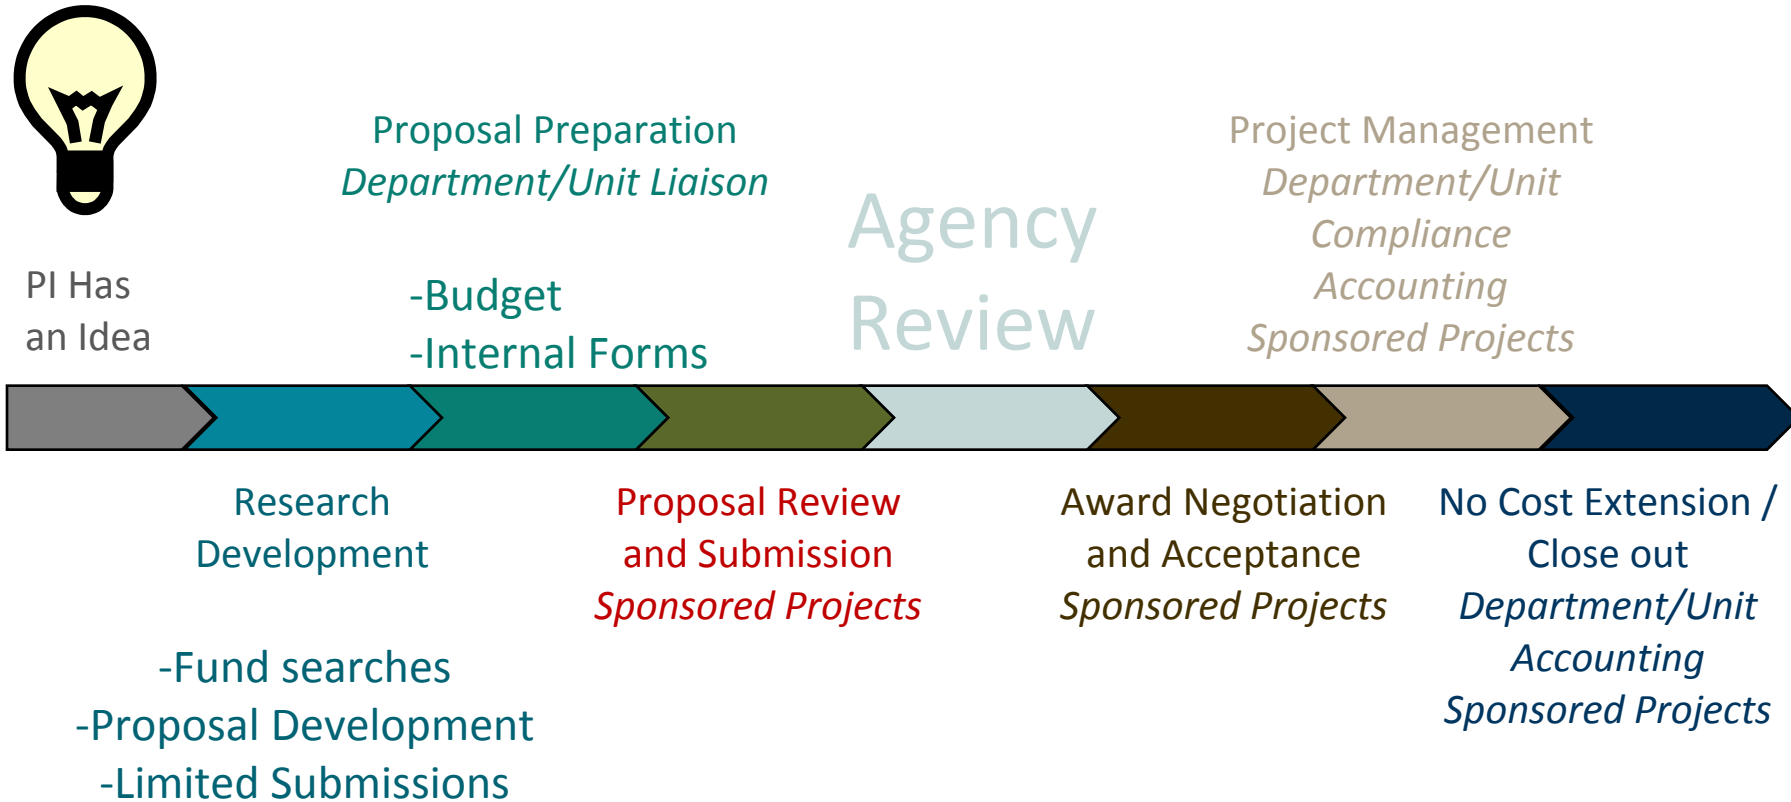

***FOR QUESTIONS DURING THIS CLASS:  
Please Use 'CHAT' feature and post to 'Everyone'***

# Proposal Scenario throughout Presentation:

- It's Monday morning at 8:05am.
- A post doc, Jim Brown, comes into your office to tell you that he and Dr. Smith are working on a proposal.
- They plan to feed a type of dye to baby chicks, X-ray the baby chicks, and show those X-rays to 5<sup>th</sup> graders to find out what they think about them.
- They want to submit this proposal to NSF's INCLUDES program (NSF 20-569).

*By the end of this session you should have the foundational understanding on what questions to ask and how to help put a proposal together for SPO review and endorsement!*

# Proposal Lifecycle

# Overview of Proposal Roles & Responsibilities

# Research Development (Office of Research)

Services offered to faculty include:

- Funding Search Tools <https://www.research.ucsb.edu/find-funding>
- Coordination of campus Limited Submissions  
<https://www.research.ucsb.edu/limited-submissions>
- Workshops, Trainings, Sponsor Visits  
<https://www.research.ucsb.edu/research-development/events>
- Proposal Preparation and Review
- Faculty Mentoring
- Publicizing UCSB Research

Refer back to **STAR Class 1 - Overview of Contract & Grant Administration** for additional information.

# C&G Administering Department/ Organized Research Unit (ORU)

## Contract & Grant Liaison:

- Assists Principal Investigator (PI) in preparing proposal
- Assists in administration of the funded project(s)
- Coordinates with PI's home department, as needed
- Serves as interface between Office of Research and PI

## Department Head (Chair/Director/Dean):

- Reviews and verifies appropriateness and resources committed with proposal
- Confirms Departmental support to administer project, if funded

## Sponsored Projects Office (SPO) (Office of Research)

- Reviews the proposal for consistency with UC and sponsor policy
- Interface between Administering Department/  
Organized Research Unit (ORU) and the sponsor
- Submits proposals on behalf of The Regents of the University of California
- Negotiates and executes award instrument and assists with award administration

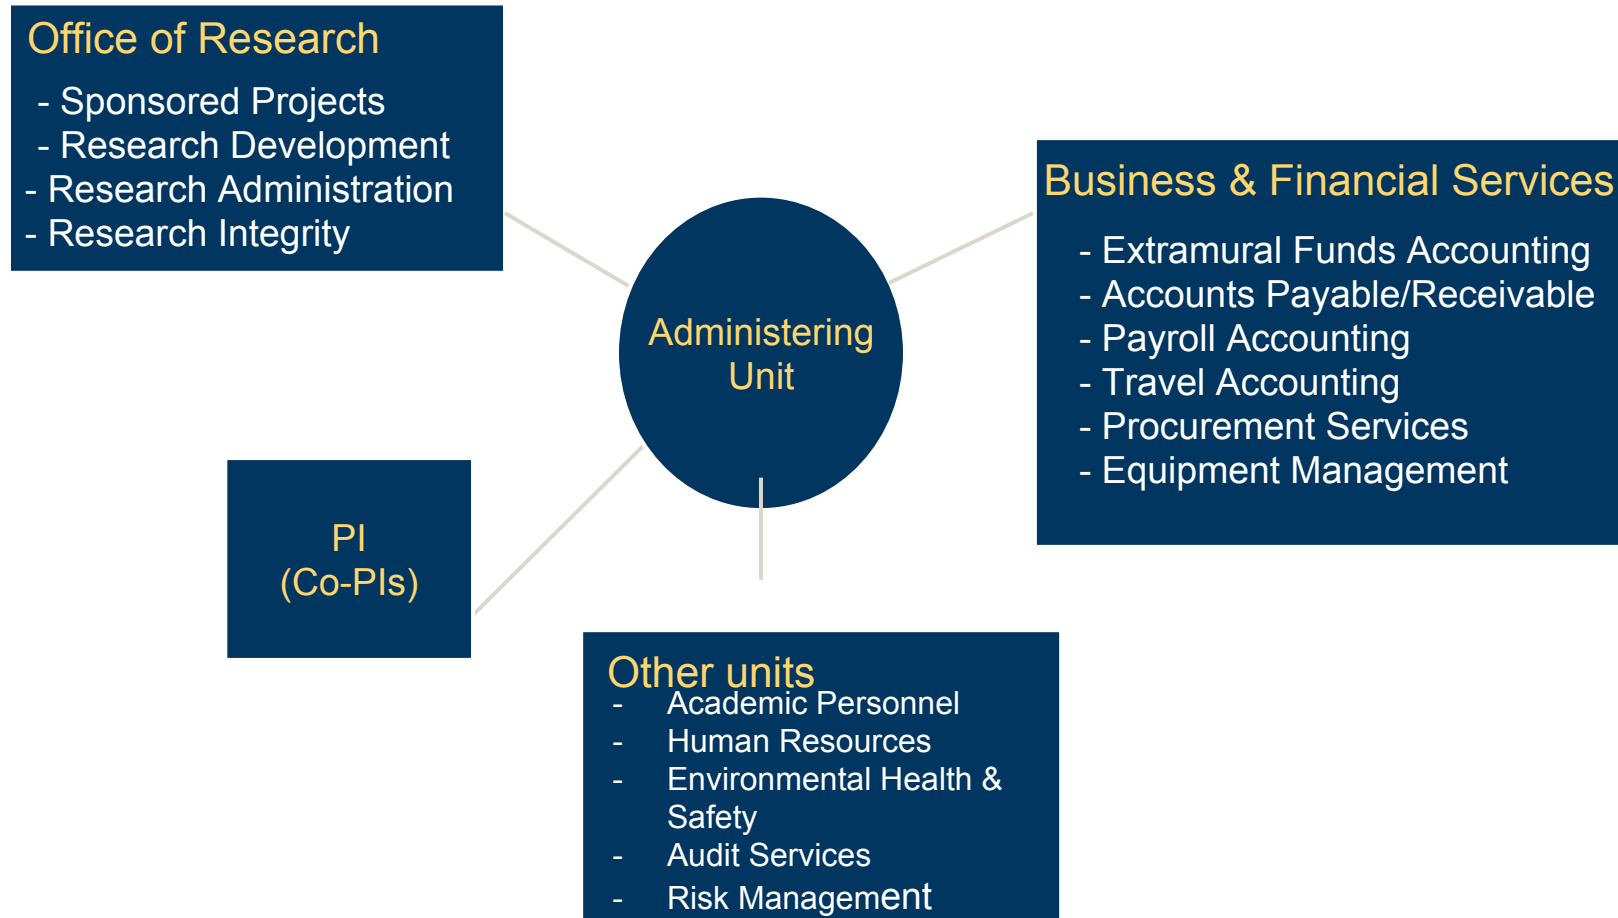

**<http://www.research.ucsb.edu/spo/>**

# Principal Investigator (PI)

- Responsible for:
  - The programmatic and financial design of the proposal
  - The technical, fiscal, and administrative management of the award
  - All report requirements
  - Compliance with award terms & conditions
  - Ensuring project costs incurred are allocable, allowable, and reasonable
  - Ensuring project performance is consistent and compliant with UC policies

# Campus Interactions

**Determine PI Eligibility**  
**<https://www.research.ucsb.edu/spo/proposal-prep/pi-eligibility>**

## Proposal Scenario:

From our earlier example, we have the post-doc, Jim Brown, and faculty member Assistant Professor Joan Smith.

**Need to determine if these individuals  
serve as PI/Co-Pi?**

# Who is automatically eligible to serve as a PI?

- Members of the Academic Senate
- Professional Researchers appointed over 50%

## Why are they automatically eligible to serve as PI?

- They are vested members of the University community and are considered ‘full participants’ in meeting the University’s goals & objectives
- Tend to be at UCSB for an extended period of time and are subject to regular University reviews

# Campus Policy Research Circular B.1

- Policy on Principal Investigator Roles and Responsibilities and Eligibility to Serve as Principal Investigator
- In accordance with UC policy, RC B.1 outlines our campus policy on who may act as a PI/Co-PI on a proposal, and the process for securing an exception to this policy.
- Resource: Includes an eligibility chart for easy reference (see Handouts)

<https://live-research-ucsb-edu-v01.pantheonsite.io/sites/default/files/SPO/PI%20Eligibility/Research%20Circular%20B.1.pdf>

# Difference between PI and Co-PI

- Principal Investigator (PI): leader on a project
- Co-Principal Investigator (Co-PI): two or more co-leaders for a project
- The first Principal Investigator will typically be the Lead/Contact PI for the sponsor's communication
- Some sponsors may only *recognize* one PI (i.e. the lead PI)
- UCSB recognizes Co-PIs, individually and equally responsible for the project

# Collaborators (Non-PI)

## **Who might they be and what is our relationship?**

- Key Personnel from other universities, non-profit or for-profit organizations

## **Why does the type of relationship matter?**

- Determines the role they will be represented in within proposal
- Determines which documentation will be required
- Affects the project budget

## **How do I confirm the role they should have?**

- Discuss with the PI
- Review against the proposed project activities
- Resources available on our website and Business Services' website (i.e. Procurement service, Subaward, funded/unfunded collaborators)

*Also covered in STAR Class 5 Business Contract and Subawards scheduled 05/12/2021*

- Contact your Sponsored Projects team to help make for further determination

# Scenario Proposal

Reminder: Dr. Brown and Dr. Smith are applying to the NSF INCLUDES Program

**National Science Foundation (NSF) = a  
Federal Government Agency**

# Sponsor Types

## *Direct and/or Flow-through sponsor*

- **Federal Government:** National Science Foundation (NSF), National Institutes of Health (NIH), Department of Defense (Army, Air Force, DAPRA, Office of Naval Research, etc.) U.S. Dept. of Education
- **State Government:** California Energy Commission, California Department of Education
- **Local Government:** County of Santa Barbara, City of Santa Barbara
- **Private/Non-Profit:** Sloan Foundation, Gordon and Betty Moore Foundation
- **Industry:** Intel, Olympus, Honeywell
- **National Labs:** *Private contractors who administer federal funds* (Los Alamos Natl Lab, Pacific Northwest Natl Lab, Oak Ridge Natl Lab)
- **International:** European Union
- **Other Universities:** USC (non-UC), any UC sister campus = Multi-campus Award

# Proposal Scenario

- How do we know what documents are required for the NSF's INCLUDES program?

## Check Sponsor Guidelines

# Sponsor Guidelines (cont.)

- They are called many different names – **guidelines, solicitation, program announcement, funding opportunity, broad agency announcement (BAA), request for proposals (RFP), request for applications (RFA)**, etc. – each with their own unique format, and many with their own numbering system.

Examples: NSF: NSF 20-569 (Program Solicitation)

NIH: PA-20-185 (Funding Opportunity Announcement)

ONR: N00014-21-S-B001 (Broad Agency  
Announcement)

- Some sponsors have a standard set of guidelines and then issue specific program descriptions for various topics with specific submission deadlines.
  - Example: All NSF proposals must follow the NSF Proposal & Award Policies & Procedures Guide (PAPPG) NSF 22-1. A professor may want to submit a proposal to the NSF's Program Solicitation NSF 20-569. This proposal must follow both NSF 22-1 and NSF 20-569.

# Sponsor Guidelines

Provides information about the who, what, when, where/how of proposal requirements:

- WHO**            Who is soliciting proposals?  
Who can submit proposals to this opportunity?  
Are there any limitations?
- WHAT**            What topic of research is going to be funded?  
What documents must be submitted?  
What format should the documents be in?  
What type of award mechanism will be funded?  
What types of costs are allowed and/or unallowable?  
What types of proposals are accepted? (new, renewal, supplement)
- WHERE/HOW**        Where are proposals submitted to?  
How are they submitted? By whom?
- WHEN**            When is the deadline for proposals be submitted?

### PROGRAM SOLICITATION

NSF 20-569

REPLACES DOCUMENT(S):

NSF 18-529

**Letter of Intent Due Date(s) *(required)*** (due by 5 p.m. submitter's local time):

October 05, 2020

October 04, 2021

**Full Proposal Deadline(s)** (due by 5 p.m. submitter's local time):

January 26, 2021

January 25, 2022

### IMPORTANT INFORMATION AND REVISION NOTES

- A Letter of Intent is required for all proposal submissions and must be submitted via FastLane by the due dates listed above.
- Prior NSF INCLUDES funding is not required to be eligible to submit an Alliance proposal.
- An NSF INCLUDES Planning Grant is not a prerequisite to submit an Alliance proposal.
- The inclusion of an NSF INCLUDES Design and Development Launch Pilot Project Principal Investigator and/or Co-Principal Investigator is encouraged but not required.
- There are limits on the number of proposals that may be submitted per organization and per PI or Co-PI.

Any proposal submitted in response to this solicitation should be submitted in accordance with the revised *NSF Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 20-1)*, which is effective for proposals submitted, or due, on or after June 1, 2020.

### SUMMARY OF PROGRAM REQUIREMENTS

#### General Information

##### Program Title:

Inclusion across the Nation of Communities of Learners of Underrepresented Discoverers in Engineering and Science (NSF INCLUDES)  
NSF INCLUDES Alliances

##### Synopsis of Program:

In 2016, the National Science Foundation (NSF) unveiled a set of "Big Ideas," 10 bold, long-term research and process ideas that identify areas for future investment at the frontiers of science and engineering (see [https://www.nsf.gov/news/special\\_reports/big\\_ideas/index.jsp](https://www.nsf.gov/news/special_reports/big_ideas/index.jsp)). The Big Ideas represent unique opportunities to position our Nation at the cutting edge of global science and engineering leadership by bringing together diverse disciplinary perspectives to support convergence research. As such, when responding to this solicitation, even though proposals must be submitted to the Education and Human Resources (EHR) Directorate/Division of Human Resource Development (HRD), once received, the proposals will be managed

There are no restrictions or limits.

#### Limit on Number of Proposals per Organization:

An organization may serve as a lead organization on only one proposal. Proposals that exceed the organizational limit (beyond the first submission based on timestamp) will be returned without review. **No exceptions will be made.**

Full proposals involving multiple organizations may be submitted two ways:

- a single submission from a lead organization, with other collaborating organizations included as subawardees, OR
- separate submissions from a lead organization and ONE collaborating organization, with any additional collaborating organizations included as subawardees.

See PAPPG Chapter II.D.3 for additional information on collaborative proposals.

#### Limit on Number of Proposals per PI or Co-PI:

An individual may serve as a PI or Co-PI on only one NSF INCLUDES Alliance proposal. Proposals that exceed the PI or Co-PI limit (beyond the first submission based on timestamp) will be returned without review. **No exceptions will be made.**

### Proposal Preparation and Submission Instructions

#### A. Proposal Preparation Instructions

- **Letters of Intent:** Submission of Letters of Intent is required. Please see the full text of this solicitation for further information.
- **Preliminary Proposal Submission:** Not required
- **Full Proposals:**
  - Full Proposals submitted via FastLane: *NSF Proposal and Award Policies and Procedures Guide (PAPPG)* guidelines apply. The complete text of the PAPPG is available electronically on the NSF website at: [https://www.nsf.gov/publications/pub\\_summ.jsp?ods\\_key=pappg](https://www.nsf.gov/publications/pub_summ.jsp?ods_key=pappg).
  - Full Proposals submitted via Grants.gov: *NSF Grants.gov Application Guide: A Guide for the Preparation and Submission of NSF Applications via Grants.gov* guidelines apply (Note: The *NSF Grants.gov Application Guide* is available on the Grants.gov website and on the NSF website at: [https://www.nsf.gov/publications/pub\\_summ.jsp?ods\\_key=grantsgovguide](https://www.nsf.gov/publications/pub_summ.jsp?ods_key=grantsgovguide)).

#### B. Budgetary Information

- **Cost Sharing Requirements:**  
Inclusion of voluntary committed cost sharing is prohibited.
- **Indirect Cost (F&A) Limitations:**  
Not Applicable
- **Other Budgetary Limitations:**  
Not Applicable

#### C. Due Dates

- **Letter of Intent Due Date(s) *(required)*** (due by 5 p.m. submitter's local time):  
October 05, 2020  
October 04, 2021
- **Full Proposal Deadline(s)** (due by 5 p.m. submitter's local time):  
January 26, 2021  
January 25, 2022

### Proposal Review Information Criteria

#### Merit Review Criteria:

National Science Board approved criteria. Additional merit review criteria apply. Please see the full text of this solicitation for further information.

### Award Administration Information

#### Award Conditions:

# Sponsor Guidelines (cont.)

When UCSB is a subrecipient:

- our “**flow-through**” or “**pass-through entity (PTE)**” should provide us with information about the prime sponsor’s guidelines, as well as guidance regarding any additional information they may need for their subagreement processing. This request will typically come to UCSB via email.

Example: USC is submitting a proposal to NSF with UCSB included as a subrecipient. USC should provide us with information about the NSF Program Solicitation as well as information about any additional documents USC needs from UCSB for their internal processing.

- Sometimes, guidelines may not be provided in an official document, but may be sent directly to UCSB via email.

# Back to our Scenario Proposal

As the administering department for Dr. Smith's awards:

- You know Dr. Smith has 2 other NSF awards and is always in the lab working with baby chicks.  
Something to keep in mind - Is the new proposal related to any existing project?

## Proposal Types

# Proposal Type: New

- A **new** research or project idea submitted to a sponsor for funding for the first time
- Usually competitively reviewed against other proposals requesting funding
- Often proposes a multi-year project period

# Proposal Type: Continuation

- Subsequent year of funding **within a previously approved project** period (incremental funding)
- Usually not competitively reviewed against other proposal submissions
- For some sponsors, this can be an abbreviated version of the original proposal submitted (i.e. progress reports/budget)
- Often based upon or triggered by submission of a progress report

Example: Dr. Johnson submitted a proposal to a sponsor to study the effects of how knitting helps cognitive behavior. The proposal was for knitting 10 sweaters each year for 2 years at the cost of \$1,000 each year. The sponsor chose to fund Dr. Johnson's project, and awarded \$1,000 to cover the first year of work. After submitting the annual progress report (which detailed the effects of the 10 sweaters knitted during the first year), Dr. Johnson then received a continuation award for an additional \$1,000 to cover the second year of effort to knit the remaining 10 sweaters.

# Proposal Type: Renewal

- Request to continue support for an existing project beyond its originally scheduled project period
- Typically requests a subsequent project period to be established
- May be awarded as a new award or as an amendment to an existing award
- Competitively reviewed

Example: For the past 5 years, Dr. Jungle has taught monkeys caretaking skills with a \$1,000,000 grant from NIH. In the last year of this project, Dr. Jungle submitted a renewal proposal requesting another \$1,000,000 for an additional 5 years to teach caretaking monkeys to care for kittens.

# Proposal Type: Supplement

- Request for **additional support** not contemplated in the original proposal, but to be **added to the existing budget period of an award**
- Often requires a simple letter of request or statement of work and budget
- Typically small in comparison to the original budget

Example: Dr. Bob was awarded \$100,000 to research the best way to build an underwater house. Halfway through his project, Dr. Bob realized that he could also figure out how to build an underwater garage if he had more money. He then submitted a supplement proposal to the sponsor requesting an additional \$25,000 to add the underwater garage to his scope of work, and still finish his project by Thanksgiving.

# Scenario Proposal

- What will be needed for the baby chick project? Post doc salary and benefits? Housing for the baby chicks?

## Budget Preparation

# Budget Preparation

## **DIRECT COSTS**

- Salaries and Wages
- Fringe Benefits
- Equipment
- Travel
- Participant Support
- Supplies and Expenses
- Consultant Costs
- Subawards
- Other Direct Costs

**+ INDIRECT COSTS**

**TOTAL COSTS**

Refer back to **STAR Class 2 – Cost Principles & Cost Accounting Standards**, and **STAR Class 3 – Budget Preparation** for additional information.

# Scenario

- A doctor at UCLA hospital will be helping analyze the X-rays. How will they be paid? Can we give them some NSF money?

**Subagreement/MCA/  
Service agreement**

# Subagreements

- The transfer of substantive programmatic effort, or significant research expected to be conducted under the project.

**STAR Class 5 - Business Contracts & Subawards** will go into greater detail.

<http://www.research.ucsb.edu/spo/subawards/>

# Scenario

- In order to accomplish the work, we will need to purchase a \$6,000 X-ray machine. NSF will not allow for the purchase of equipment.

**May need Project Contributions**

# Project Contributions

- Resources that are contributed to a sponsored project over and above the support provided by the extramural sponsor of that project.
- All costs budgeted as project contributions must meet the same standards as those costs being requested of the sponsor.
  - Must be allowable, allocable, reasonable, and consistent.
  - Must be compliant with all applicable policies and guidelines.
- Does the sponsor allow for project contributions?

<http://www.research.ucsb.edu/spo/proposal-preparation/project-contributions/>

# Project Contributions

Depending on sponsor guidelines, project contributions will fall under one of two types:

- **Mandatory Committed**

- Required by sponsor
- Tracking of mandatory, committed funds is required by the administering department and Extramural Funds Accounting (can be audited)

- **Voluntary Committed**

- Not required by sponsor but quantified in the proposal
- If quantified to sponsor, the “voluntary” contribution becomes “mandatory” at award stage
- Tracking of mandatory, committed funds is required by the administering department and Extramural Funds Accounting (can be audited)
- If not required by sponsor, SPO strongly suggests that *quantified* amounts not be included

# Project Contributions

## Four categories of project contributions:

- **UC Cash**

University resources specifically set aside for the project that would not normally be available to the PI

- Examples: Cash, new technical staff dedicated to the project, equipment purchase

- **UC In-Kind**

University resources already available to the project; a value of non-cash contributions provided to the project

- Examples: PI *academic* salary/benefits, unrecovered indirect costs

- **Third Party Contribution**

Resources provided from a non-UC source

- Examples: Existing extramurally funded award (if allowed by sponsor), volunteers, use of industry owned equipment

- **Project/Program Income**

Money earned by the University during the project period that is earned because of the existence of the funded project

- Example: Ticket sales

# Proposal Flowchart

# Department Liaison Responsibilities

- Guidelines, Timelines and Deadlines
- Create a budget for the PI
- Ensure compliance with sponsor guidelines, UC policy and State/Federal Regulations
- Complete campus and sponsor required forms
- Gather and review subrecipient forms and documents

# Step One

- Review Guidelines
  - What is the deadline?
  - Is PI eligible? Is UC eligible?
  - Submission Method – Cayuse, Fastlane, other sponsor portal, hard copy?
  - Who is submitting? SPO, Department or PI?
  - Are Project Contributions allowable?
  - Period of performance limitations?
  - Budget restrictions / requirements?
  - Other restrictions?

# ORBiT

- Office of Research's contract and grant electronic database
- All proposals submitted by the campus and all awards accepted by the campus are tracked in this system
- To request an account, email: [orbithelp@research.ucsb.edu](mailto:orbithelp@research.ucsb.edu)

# Complete the Proposal Documents

- Create a record in ORBiT – this generates the datasheet
- Create a UCSB detailed budget
- Assist the PI with the completion of any sponsor required documents
- Work with the PI to address any PI eligibility exception request documents, if applicable
- Work with subrecipients to secure their proposal documents, if applicable
- Work with the PI and the Office of Research to secure any Project Contribution documentation, if applicable
- Compile all proposal documents and upload in ORBIT for pre-review, including the guidelines

# UCSB Datasheet (Page 1)

- Most recently updated in November 2020.
- Provides mechanism for entry of essential data about each proposal into the University's contract and grant system, ORBit.
- Provides SPO the assurance that internal approval and compliance requirements have been met regarding each contract and grant.
- Must be generated and submitted with every new proposal (new, renewal, continuation, supplement)

<b>1.</b>	<p><b>ASSURANCES:</b></p> <p>Will any human subject research be conducted on this proposal?            If Yes, will any of the HS research be performed at UCSB or by UCSB personnel? <input type="checkbox"/> Yes <input type="checkbox"/> No            "Human subject" means a living individual about whom an investigator conducting research: 1) Obtains information or biospecimens through intervention or interaction with an individual, and uses, studies, or analyzes the information or biospecimens; or 2) Obtains, uses, studies, analyzes, or generates identifiable private information or identifiable biospecimens. ("Private" means information an individual can reasonably expect will remain private, like a school/medical record or identifiable tissue/blood.)</p>	
<b>2.</b>	<p>Does this proposal involve non-exempt human subject research to be conducted at multiple U.S. sites involving NIH funding through a grant, cooperative agreement, or contract (excluding career development, research training or fellowship awards)?            A multi-site study is where the same non-exempt HS research study is being conducted at more than one domestic site.            If Yes to the above, contact UCSB's HS staff at <a href="mailto:hsc@research.ucsb.edu">hsc@research.ucsb.edu</a>.</p>	
<b>3.</b>	<p>Will your research involve the use of protected health (HIPAA) information? If Yes, and your proposal is awarded, you are required to contact your IT support person for assistance with securely storing your data.</p>	
<b>4.</b>	<p>Will your research involve the use of personal identity information (SSN or Drivers License with First &amp; Last Name)? If Yes, and your proposal is awarded, you are required to contact your IT Support person for assistance with securing your data.</p>	
<b>5.</b>	<p>If the proposal is being submitted to PHS/NIH, will the research generate large scale human and/or non-human genomic data? If Yes, a Genomic Data Sharing plan needs to be included with the proposal.</p> <p>Large scale genomic data includes phenotypic data, genome wide association studies (GWAS), single nucleotide polymorphisms (SNP) arrays, genomic sequencing, transcriptomic metagenomic and epigenomic data, gene expression data, and any use of that data for future research.</p> <p>If the proposal involves sharing human data, then you will need to obtain an Institutional Certification from the Research Integrity Office to assure compliance with NIH regulations. You are encouraged to contact a Research Integrity Specialist (<a href="mailto:researchintegrity@research.ucsb.edu">researchintegrity@research.ucsb.edu</a>) at the initial "Just in Time" notification to obtain the Certification.</p>	
<b>6.</b>	<p>Will any vertebrate animal research be performed on this proposal?            If Yes, will any of the vertebrate animal research be performed at UCSB or by UCSB personnel? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>Have you discussed animal housing needs with the ARC Director? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If No, the PI must seek approval from the ARCDirector for animal housing space</p>	
<b>7.</b>	<p>Will Human Stem Cells be used? Human stem cells apply to the use of gametes, blastocysts, derivation and/or use of human embryonic stem cells (hESC), embryonic or fetal germ cells, adult and fetal stem cells, or human induced pluripotent stem cells. Do not check "Yes" if you are using adult tissue specific stem cells such as hematopoietic cells or mesenchymal cells unless they are being induced to differentiate into the three major germ lines.</p>	
<b>8.</b>	<p>Will any of the following be used for this project: Chemicals (solids, liquids, or gases); Radioactive materials; X-ray producing machines; Non-ionizing radiation (lasers, UV, microwave); Biosafety Level 2, Level 3, or "Select" Biological agents; Recombinant DNA; Human/Primate tissues or fluids; Animals or animal tissue/fluids; Research divers/dive equipment/small boats; Controlled Substances (DEA Schedule I-IV)?            If Yes, complete the EH&amp;S Contract and Grant Questionnaire ( <a href="http://www.ehs.ucsb.edu/labsafety/ehs-contract-and-grant-approvals">http://www.ehs.ucsb.edu/labsafety/ehs-contract-and-grant-approvals</a>)</p>	
<b>9.</b>	<p>Will additional space or alterations be necessary for this project? (NOTE: Any use of Natural Reserve Systems sites, whether ongoing or new, is considered additional space and requires NRS approval.)</p> <p><b>If Yes, indicate additional space requirements or alterations necessary</b></p> <p><b>If No, specify buildings &amp; rooms for project:</b></p> <p>In addition, if servers and/or computing peripherals will be acquired (other than desktop or laptop workstations), then please contact Enterprise Technology Services (ETS) for assistance finding data center space with adequate power, cooling, connectivity, and security. **As Principal Investigator (Co-Principal Investigator), I certify that:**

The information contained on this data sheet is accurate.

The information submitted within the application/proposal and this certification is true, complete and accurate to the best of my knowledge; that any false, fictitious, or fraudulent statements or claims may subject me personally to criminal, civil, or administrative penalties; and that I agree to accept responsibility for the scientific conduct of the project and to provide the required progress reports if a grant is awarded as a result of the application/proposal.

I am aware of the duties and responsibilities for the management of the sponsored project, including but not limited to, 1) having primary responsibility for the scientific integrity and management of the sponsored project, 2) ensuring that the project program is appropriate to the mission and policies of the University, 3) ensuring that adequate space and resources exist to conduct the project, if funded, 4) ensuring that the project work complies with applicable health, safety and environmental regulations and UC policies, and 5) ensuring adherence to externally imposed sponsor terms and conditions, including reporting and record keeping requirements.

I am aware of my responsibilities relating to the financial management of the sponsored project, including, but not limited to, ensuring that 1) costs identified in my project budget are reasonable, allowable, and allocable in accordance with applicable CMB policies (either the Uniform Guidance or CMB A-21) and 2) direct costs identified in my project budget that are typically covered under the Facilities & Administration (indirect cost) rate are appropriately described and justified in the proposal budget narrative, explicitly stating the reason the costs are required to perform the project and that the costs are appropriate in accordance with applicable CMB policies (either the Uniform Guidance or CMB A-21), as a direct charge to the project.

I understand that if the proposal is awarded, I have an ongoing obligation throughout the term of the project to report to Sponsored Projects, as soon as I become aware, whether I or any other employee or student participating in the project becomes debarred or suspended, as described in Assurance #13, or is convicted, indicted, or has a civil judgment entered for committing any of the offenses listed in Assurance #13 above.

If the Sponsor requires Responsible Conduct of Research Training, I am aware and certify that I will ensure that all undergraduates, graduate students, and postdoctoral researchers who will be supported by this proposal will take the required training on responsible and ethical conduct of research.

If this proposal is being submitted to a federal agency (including federal flow-through) or to any sponsor requiring Financial Conflict of Interest disclosure (FCOI), I certify that all personnel responsible for the design, conduct, and reporting (DCR personnel) have completed the required COI training, the annual disclosure form and certify that all DCR personnel shall maintain current updated disclosures in OR's Conflict of Interest Disclosure System (<http://ucsb.coi.smart.com>) throughout the life of this project in accordance with Research Circular D.1.

I certify that I have read and understand that: 1) Federal law prohibits trafficking in persons, procuring commercial sex acts (even in a location where it is otherwise legal such as Nevada), or using forced labor during the period of performance of a federal grant, cooperative agreement or contract. 2) Instances of employees working on federally funded projects who violate this condition must be reported to the government and penalties up to and including removal from the project, termination, and possible criminal prosecution may ensue. 3) I understand that as the Principal Investigator for a federal project I am responsible for informing project personnel that they are subject to this requirement. For additional guidance and information, refer to UCCP RPAC Q&G Memo 13-07 - Federal Clauses on Trafficking in Persons, Prostitution, and Related Activities (<http://researchmemos.ucsb.edu/jsp/app/index.php/site/document?memo=UBBQy0zMy0v4k4u==8.doc=29>).

Foreign Involvement: If this proposal is being submitted to a federal sponsor (or federal flow-through sponsor), I confirm that I have reviewed the sponsor's policies that are referenced in Assurance #11, above. I also understand that I am responsible for accurately and fully reporting the required information to the sponsor.

Further, I certify, to the best of my knowledge at the time of the submission, that the information regarding foreign involvement provided in the proposal is complete, accurate, and compliant with the federal sponsor's policies.

Sponsored Projects will use all efforts to thoroughly review proposals under the circumstances surrounding submission. However, please note that it remains the primary responsibility of the principal investigator to assure that proposals adhere to UC policy and sponsor guidelines.

# Key Personnel Module

- The Public Health Service (PHS) and the National Science Foundation (NSF), or any institution that follows their COI policies, require that the lead Principal Investigator (PI) on funded projects identify project Investigators.
- Those Investigators are required to disclose their significant financial interests, and each disclosure must be reviewed before funds may be spent.
- **An Investigator includes anyone who can directly or materially influence the research, or who is responsible for the *design, conduct, or reporting of such research*, and is not limited to Key Personnel.** The lead PI should make the determination of who is an Investigator for every proposal submission, continuation, personnel change or no cost extension via the Key Personnel tab on the ORBiT datasheet.

# Key Personnel, continued

Below is a quick reference to help PIs in identifying investigators:

<b>Roles</b>	<b>Investigator?</b>	<b>Guidance</b>
Principal Investigator	Yes	
Co-PI	Yes	
Postdoctoral Scholars	Almost Always	When a postdoc's role on a project involves a significant degree of autonomy and responsibility, they should be listed as an Investigator.
Graduate Student Researchers	Occasionally	Graduate students are considered an Investigator when they receive a fellowship for a project that they lead. Graduate student researchers working on faculty-led projects do not meet the definition of Investigator.
Other Roles	Situational	These individuals should only be considered Investigators if they are responsible for the design, conduct, or reporting of the research project.

# Proposal is submitted to SPO for review...

## What should you do now?

- Take the time to review the proposal
  - Is the proposal compliant with UC policy and the sponsor's guidelines?
  - Do you need signatures on any sponsor or campus documents?
  - If necessary, are the PI/co-PI annual Conflict of Interest (COI) disclosures done?
  - Have you received final versions of the proposal documents?

# Electronic Proposal Routing to SPO

- SPO has converted to an electronic review processes. Training sessions are still available to familiarize department liaisons with routing documents to SPO electronically. Please contact your SPO team if you would like to arrange a training or contact [orbithelp@research.ucsb.edu](mailto:orbithelp@research.ucsb.edu)
- Proposal documents are routed to SPO via ORBiT by uploading all pertinent PDFs
- If Datasheet Assurances #16, 17, or 18 were marked as “Yes”, the Key Personnel Module will need to be addressed at award stage.

# UCSB Proposal Forms

- **OR Information Sheet (Form 411) – no longer used (sample still in handouts). Replaced with electronic submission**
- **Datasheet (Form 100)**

If applicable:

- Subagreement Forms (SK Form 100, 101, etc. RC D.7)

What?

- Log proposal into ORBiT
- Prioritize
- Review:
  - ✓ Data Sheet
  - ✓ Commitments
  - ✓ Budget
  - ✓ Compliance
  - ✓ Subagreement Documents

# Sponsored Projects Review

- SPO review ensures proposal is consistent with University and sponsor policies prior to submission of the proposal to the sponsor
- Ensures compliance with applicable Federal regulations per UC Policy (despite not submitted directly to Federal sponsor)
- Reminder: Type of SPO review dependent on time submitted to SPO for review prior sponsor deadline!

*Standard, Expedited or Same-day proposal review.*

# UCSB Proposal Submission Timeline for a standard proposal review:

Monday	Tuesday	Wednesday	Thursday	Friday
		Pre-review Proposal to be received in OR by 5pm		
Monday	Tuesday	Wednesday	Thursday	Friday
		<u>UCSB Proposal Deadline</u> All proposals should be submitted by 5pm to allow adequate time to address possible submission issues. Grants.gov 48 hour window begins at 5pm		<u>Sponsor Proposal Deadline</u>

***Expedited Review if SPO receives Proposal documents less than seven (7) full business days. SPO's review:***

- checks only minimum proposal elements to ensure compliance with UC and Federal regulations.
- does not review specific proposal requirements or check to ensure that all proposal elements are correct or included for submission.
- Liaison and PI responsible for ensuring proposal is compliant with all applicable guidelines

# Coordination with Sponsored Projects on Proposal Review

- **Review Comments via orbit:** Once the SPO Team has completed their review, they contact the department liaison with recommended and/or mandatory corrections to the proposal
- **Liaison email response to review comments:** All required to confirm all mandatory corrections were made to proposal
  - Note: SPO must receive a copy of the signed data sheet with acceptable signature. See <http://www.research.ucsb.edu/spo/proposal-preparation/> for a chart of acceptable signature types.
- **Coordinate with SPO Team for official submission to sponsor**

# Submission to Sponsor

- **If Sponsored Projects Team (Officer/Analyst) is submitting:**

- Notify SPO team that proposal is ready for submission within the applicable online system.
- Provide the final PDF of proposal to submit if submission by email, If applicable

**If Department/PI is submitting:**

- WAIT FOR SPO TEAM OFFICIAL OKAY TO SUBMIT
- Notify SPO Team of submission completed, if done through a agency specif portal
- Copy SPO Team on submission of email transmittal of proposal

# Electronic Finals (i.e. “eFinals”)

- Office of Research serves as the Office of Record for all submitted extramural proposals
  - Administrative Department must provide the SPO Team with a complete PDF copy of the proposal submitted to the sponsor (i.e. “eFinals”)
    - Must include the UCSB detailed budget as part of PDF (regardless of sponsor requirement for project budget)
  - Email SPO Team copy of eFinal within 48 hours of proposal submission
- \* *See handouts for instructions on the “Efinal”*

# What happens next?

## Sponsor Review

- Review period can take 6-9 months, depending on the sponsor
- Sponsor Guidelines may contain information on their review process
- During sponsor review, sponsors may request:
  - Supplemental information
  - Compliance approvals
  - Revised budget
  - Proposal Update
- Some sponsors issue ‘Notice of Intent to Fund’
- If sponsor does not select the proposal, may issue official Denial notice
- Next STAR Class 6 covers the Award negotiation and acceptance process in-depth
