A few notes before we dive in....

- Each department develops a process in its own unique order based on its Pls, culture and size.
- Procedures change based on changes in administrative units, changes in financial systems, and the availability of online systems.
- This presentation includes procedures currently in place in my department.

Tracking Proposals & Awards

Maintain an organized and consistent filing system for electronic and hard copies

 Pending Proposals Files - electronic and/or hard copy.

 Denied proposals - electronic and/or hard copy.

 Awarded proposals files electronic and/or hard copy.
 Project Worksheet/Information Form.

 Dropbox/Google Drive/UCSB Connect Box, dept. shared drives, Cayuse.

Award Notification

PI & Dept Liaison receive email notification from ORBiT that new award/continuation has been set up.

Docs attached to email: Award Synopsis, Accounting allocation, agency award document

- Review all attachments to ensure understanding of terms and conditions for each award.
- Make note of any compliance requirements/restrictions: does the project involve human subjects, animal subjects, stem cells, etc.
- Reporting requirements and frequency

Award Notification

- In my department, we have transitioned to a fully electronic system for each proposal.
- Keep your internal department folders consistent in how they are labeled and what information is contained in the file.
- Once awarded, relevant files (typically the budget and/or OR Final) are copied or moved to the award file along with the ORBiT documents.
- Files are kept for years after the award ends or the proposal is denied.

So we received the award notification... where do I begin?

• Pull proposal file.

 Print/Save all award documents, including internal documents.

 Project checklist/project worksheet.

 This worksheet is a checklist of set-up and close-out processes for an award.

 Keep in award file and include all related forms.

Award set-up

- Review Award Synopsis, Accounting Summary and Agency Award Documents
- Review synopsis for dates, names, titles, type of action, compliance info, cost share obligations, etc.
- Identify reporting requirements and budget restrictions as well as any other agency requirements outlined in the award documents.
- Compare allocations from your detailed budget to extramural accounting set up of award. Report discrepancies in synopsis/accounting allocation from your own information to appropriate unit immediately.
- Make sure that if subagreements & participant support are allocated in sub 7 together that you track the expenses subject to overhead appropriately.
- If the award contains subagreements, compile the final paperwork to establish a subagreement.

Quiz

Type your answer in the chat.

One of your PI's recently received a new NSF award. After reviewing the award documents, you notice an error in the accounting allocation: funds for international travel were mistakenly allocated to the wrong sub. Is it too late to have the error fixed?

QUESTIONS? Please use the chat feature.

Establish a project code and cost center, if applicable

 Geography assigns internal project codes for all awards and cost centers, if needed.

 Internal project code established for all new awards using established naming scheme.

o Ex. HGNSF1 = PI: Husak, G.; Agency: NSF; Project #1

 If the project contains <u>multiple PI's</u>, creating a cost center may be helpful.

 Cost centers have the same account-fund; link multiple project codes together for accounting purposes.

Award set-up

• PI email notification of new award.

- Prepare signature authorization form/email.
- Set up project code and purchasing authorizations in the Gateway Management console.
- o Personnel. Start as early as possible.
- Update your award tracking system

Signature authorization/cancellation is established by submitting this pdf form

PI Notification & Authorization

Dear Professor,

We received documentation that your award from (AGENCY NAME), entitled "(FULL PROPOSAL TITLE)," has arrived on campus. Could you please provide me with the following information so I can proceed with our internal account setup?

1. Employee information for any person to be paid on these funds:

- a. Full Name
- b. Type of Appointment (post-doc, GSR, etc.)
- c. Start date
- d. Salary level (if different from current salary level)
- e. Academic Department (if not GEOG)
- f. Department currently employing this person (if not GEOG)

The employee information will be sent to our Personnel Coordinator (add contact details).

2. Names of individuals who you authorize to spend on this account. We will allow these individuals to independently place low value purchase orders for amounts under \$500 unless you instruct us to do otherwise.

- 3. Recharge accounts you will need for this project:
 - a. Physics
 - b. Chemistry
 - c. Biology
 - d. Other (please indicate)

After you have submitted the information requested above, I will begin requesting accounts, etc. I will send you a subsequent email as soon as all of the accounts have been established.

Please feel free to contact me if you have any questions.

Kind regards, Alycia

Pl responds to award notification email

 PERSONNEL: Identifies individuals who should be supported on the project.

 RECHARGES: Identifies which departmental recharges he/she wants established.

 PURCHASING AUTHORIZATION: Identifies individuals allowed to spend on project and their spending limits.

• Provides Nickname for project.

Establish Department Recharge Accounts

On-campus recharge facilities

 Based on PI response to new award notification, you will know if PI needs Biology, Chemistry, Physics and other departmental recharge numbers established.

 Contact each department to find out what their procedure for setting up a recharge account is. Update your systems with purchasing authorization info, recharge numbers, who receives financial statements, reporting requirements, etc.

Setting Up Subagreements

• OR teaches an entire class on subagreements.

- Subaward Officer Daniela Gallardo.
 https://www.research.ucsb.edu/subawards
- Multi-Campus Awards are subcontracts between UC campuses. The funds are transferred directly to the other UC campuses by Extramural Accounting and your total allocations are reduced accordingly.

Project Contributions

 This can be actual dollars given to the PI as <u>UC</u> <u>Cash/Participation</u>, in-kind including faculty salaries, other awards that can be used as <u>Cost Sharing</u>, or <u>matching funds</u> from a third party.

 Other awards used as cost share may be administered in other departments.

 Matching funds must be used within the project period of performance.

• Coordinate with OR and/or other departments.

Final PI Award Notification Email

 Provide the PI with the project code, recharge account numbers and authorized users for the new award.

 Reiterate any restrictions (reallocation, travel, equipment) for the award (keep in mind that he/she will not remember).

 Let PI know reporting requirements especially for awards that are funded incrementally.

 Provide the link to your Department website: <u>http://geog.ucsb.edu/</u>

Dear Professor:

Here is the account information you will need to begin spending your NSF-DMR funds:

Geography Project Code: ABNS01 Account Name: NSF-DMR Account Number: 8-444032-xxxx-3 Physics Recharge Acct: C3 Chemistry Recharge Acct: ABNS01 Biology Recharge Acct: ABNS01

Authorized Users: Researcher 1, Researcher 2

Please visit the Geography Department's website for more information regarding purchasing and travel reimbursements. All forms are available online at the following website: <u>http://geog.ucsb.edu/geography-services/</u>

All purchase orders must be submitted via the Gateway Procurement system: https://gateway.procurement.ucsb.edu/Login.aspx For questions, please contact Patricia Halloran: x4998; patricia.halloran@geog.ucsb.edu

(Indicate if there are specific agency restrictions on this account in this e-mail. For instance, you may mention that the agency requires prior approval for all equipment purchases not specified in the proposal budget).

Please feel free to contact myself or anyone in the Geography Research Office if you have any questions.

Best regards, Alycia

Provide the award information to the appropriate administrative staff

 Depending on your departmental set up, this can be done different ways: email, hard copy, staff meetings.

• Forward budget to personnel analyst.

 Update your shadow systems. In Geography, we use the GUS database to manage our awards (purchasing, payroll, etc.)

o Update departmental grants list.

Departmental Grants List

• Particularly important if you do not use GUS

• A list of current/active awards in department.

 Can be generated in GUS or department can create their own.

 This list is how staff know which project codes are active, account-fund string, valid recharges codes, etc.

AND I WOULD HAVE GOTTEN AWAY WITH IT

IF IT WASN'T FOR YOU MEDDLING RESEARCH ADMINISTRATORS

Roles & Responsibilities during the life of an award

• Awards are made to the University and **NOT** to the PI

 PI is ultimately responsible for all aspects of the project (OR data sheet).

 A research administrator's main responsibility is to help mitigate risk and advocate for the PI.

 Department assists PI with financial and administrative management of the award to ensure PI is in compliance with University and agency policies.

 Collaborative process both within the department and across campus.

Working with the PI & Project Personnel

Managing the day-to-day transactions

Monthly reconciliation and "forensic" accounting
 Check-in meetings

• Report coordination

• Research compliance issues

 Working with administrative staff, research personnel and other departments

Day-to-day transactions

 Personnel: researchers, grad students, summer salary, undergrads, technicians, other research staff.

- Working with other departments, Academic Personnel, Human Resources, Grad Division.
- Navigating UC Path and Kronos; Graduate Division financial portal.
- Personnel Projections
- Effort Reporting

• Purchasing/Procurement:

- Purchase orders via Gateway or Flexcard.
- Direct vs. F&A expense. Justification to support expense.
- Computer purchases: allowable? Equipment or supplies?
- o Is a Form A needed?
- Small Business Subcontracting Plan, if applicable.

<u>Review transactions frequently: allocable, allowable, and</u> <u>reasonable?</u>

OR STAR Class #8

Day-to-day transactions

• Equipment & Fabrications:

- Allowable? Is prior approval needed?
- Who retains title?
- Property ID tag and maintaining inventory.
- o Add-ons, upgrades, replacement parts and repairs

o Travel: domestic and foreign

- o Any restrictions?
- o Is prior approval required?
- o Advances vs. TEV's
- o U.S. Flag Carrier

o Subawards:

- Are subrecipients submitting invoices?
- o Did the PI review/approve invoice?

Allocating additional funds after funds are received at UCSB (if applicable)
 Monitoring funding.

o <u>Review transactions frequently: allocable, allowable, and reasonable?</u>

Day-to-day transactions

Participant support:
 Were costs budgeted in the proposal budgeting?
 Re-budgeting restrictions?

• Other Direct Costs:

- o On-campus recharges
- Publication costs
- Payments to human subjects participants
- Professional Services Agreements/Consulting
- Any other services? Unexpected expenses?
- o Form A needed?

<u>Review transactions frequently: allocable, allowable, and</u> <u>reasonable?</u>

Quiz

Type your answer in the chat.

True or False:

The only time you will review grant award documents is at the initial award stage, when you are setting the award up.

Account Review

Financial Management – a daily process:

- Prior approval requests, if necessary. Coordinate with SPO and/or other depts.
- o Timely reconciliation
- <u>Forensic accounting</u>: researching problems and fixing errors in a timely manner.
- Ensuring records are accurate and appropriate backup documentation is on-file. Being "audit-ready."
- Cost transfers
- Providing regular financial reports to PI's
- Monitoring spending rates
- Rebudgeting allocations between direct costs categories & obtaining appropriate approvals, if necessary.

o Cost Share/Matching funds

Account Review

- Disseminate financial info to PI regularly
 PI's are responsible for reviewing the information for accuracy and notifying department of any errors.
 - o Schedule one-on-one check-in meetings.

Reporting

 Agency technical/patent/financial/property reports; frequency; mode of transmission; recipients.

 Some federal agencies require online report submission so plan ahead.

- o Invoicing
 - Work with Accounting to ensure proper documentation is submitted in accordance with the invoicing terms.
 - Some agencies require back-up docs.

Annual Project Contribution Reports

Tracking Reports: How reports are tracked varies within departments

- OR only tracks final reports (award synopsis).
- Create a system that works for you and your PI's
- Reports can be tracked in GUS and dates will display on GUS financial reports as well as online GUS
 - o Monthly quarterly, annual, and final technical reports
 - Annual and final patent reports.
- Agencies are starting to withhold funding if final reports are overdue. (tech, patent, property, etc.)
 This may not only jeopardize the PI's funding but potentially other awards/proposals at UCSB.

Research Compliance Issues

Be aware of and monitor for any:

- Foreign involvement
- o Conflict of Interest (COI)
- Change in project personnel effort
- Protected data
- Human and/or animal subjects
- o Stem cell
- Environmental Health & Safety (EH&S)
- Foreign sponsor/collaborations

** Office of Research website is your best resource for the latest guidance in these areas.

Communication & Teamwork

- PI and research team
- Departmental administrative staff
- Other departments
- Central departments

Regular communication and teamwork are absolutely essential to ensuring postaward management success!

Utilize your resources

- C&G liaison resources page on the OR website
 - $_{\odot}$ Lots of links to a ton of helpful information.
- Other department liaisons
- UCSB C&G Google groups
- C&G Expertise contact list
- SPO Team & EMF staff
- Refresher STAR courses and other campus courses
- Agency websites/listservs

Helpful post-award tips

 Check financial transactions for compliance and allowability on a daily/weekly basis.

o Check your award documents frequently.

 Ensure that your shadow systems are up-todate.

Keep close-out requirements in mind during:
 Managing transactions for the project
 Responding to project changes
 Reporting and invoicing

Helpful post-award tips

 Talk to your PIs – ask them how their research is going.

- Keep in mind they will likely forget certain award requirements so you will need to remind them (more frequently than not!)
- Documentation is key
- o "Expect the unexpected"
- Communicate!

Adapting to CHANGE during the life of an award

- Processes and procedures can change due to changes in business practices on campus or at funding agencies.
 - NSF PAPPG is revised annually
 - OMB Uniform Guidance eff. 12/26/14
 - COVID-19 pandemic
- New systems may be introduced during the award period:
 - o Timekeeping (Kronos)
 - o UCPath
 - Agency systems
 - UCSB Financial system
- Review/update internal processes to ensure compliance with UC and Federal policies.

Department Close-out Process: Preparations

- Award closeout is more than simply the expiration of a project so start <u>early</u>
- Must be a collaborative effort to ensure success
- Develop a process/timeline that works for your department and Pls.
 - We begin the closeout process 6 months prior to the end date.

Department Close-out Process: Preparations

6-month review:

- Award: spending rate, reports, outstanding liens, personnel, object codes
- Verify validity
- Contact PI and make a closeout plan about how remaining funds fill be spent.
 - o Possibility of no-cost extension?
- o Review Hot List (more on next slide)
- Project Contributions
- Subagreements/multi-campus awards
 - Check spending & invoices; work with PI to send reminders, as needed

HOT LIST

A GUS-generated list of awards that will end within a specified timeframe

- Generate and review on a monthly basis.
- List generated by award end date so awards that require an annual report to trigger the next increment of funding show up on the list and PIs can be notified.

Hot List - Projects Ending

Why bother with this type of tracking?

1. Ensures compliance with applicable policies.

- o UCSB Closeout (Dept & Accounting) must be completed in 60/120 days.
- o Dept. Closeout to be completed no later than **<u>2 weeks</u>** prior to agency deadline.
- $_{\odot}$ There are exceptions (NSF-45 days).
- 2. Avoid overdrafts.
- 3. Ensures appropriate spending.
- 4. Workload planning and management.

✓ Initiate closeout review at 6 months and then again at 3 months prior to award end date and finally at the 1 month mark.

Closeout Notification

 Dept receives notification of upcoming closeout from Accounting.

 If you are not using GUS, you can use the "Extramural Close Out Report" in the data warehouse to help with closeout preparations.

- Coordinate final reporting requirements with PI (and SPO if institutional approval is needed).
 - Keep a hard copy in the award file. Award files are kept for 6 years after the award ends, unless otherwise specified in the award.

 Prepare financial close-out memo for Accounting - available at: https://bfs.ucsb.edu/extramural-funds/forms

Closeout Notes:

Closeout of Project Contributions

 Matching funds must be used within the project period of performance.

 Keep in mind other awards used as cost share may be administered in other departments.

• Final Project Contribution report (PCR).

o Any other agency requirements?

Closeout of Subagreements/MCAs

- Prepare and start as early as possible!
- Make sure you have received all required reports prior to the agency reporting deadlines. Subaward terms usually require subs to submit their final reports to UCSB 30 days prior to the agency reporting deadline.
 - For subagreements make sure you get the final invoice marked as "Final Invoice."
- Complete the OR Subaward Close-out Certification.
 OR forms can be found at:

https://www.research.ucsb.edu/subawards

 MCA's can be monitored through data warehouse reports but the reports only provide total dollars spent; no detail by subs or object codes.

Final Reports

 Don't forget the final reports are typically due 60 to 120 days after end date of award.

- Submit them on time! Some agencies will not pay the final invoice until all final reports have been submitted or Accounting may not be able to draw down funds.
- Make note of submission method some agencies require online submission of reports so plan ahead.
- SPO no longer requires a copy of the final technical report (unless institutional certification is required) but their office does require confirmation of submission.

• They are a great resource too, and always willing to help!

Final Reports

Retain copies in your dept (electronic and/or hard copy)

- <u>http://recordsretention.ucop.edu</u>
- "Record Retention Best Practices for Departments" tool on the C&G Liaison Resources page.

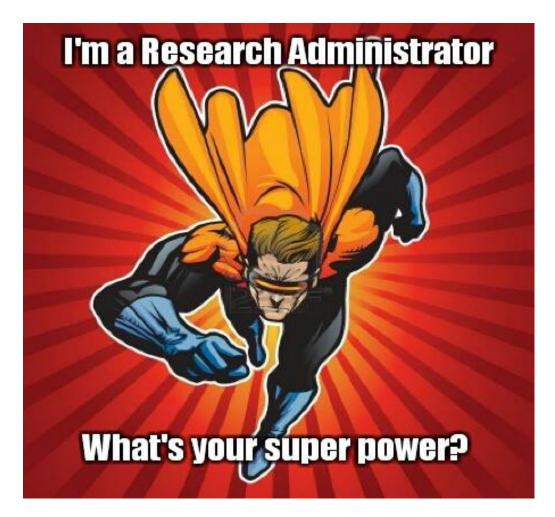

Coordination: Keep in mind that some final reports may be handled by another department (Equipment Management, Accounting)

Closing Remarks

- Take the time to review your awards
- Keep abreast of University, Federal, and State regulations
- Stay organized and be flexible
- Maintain clear documentation for future reference
- Prepare for the unexpected
- Use your resources:
 - Coworkers, C&G liaisons, SPO Team, OR, EMF Accounting, Equipment Management
 - Bookmark C&G Liaison Resources <u>website</u>
 - Professional development workshops/meetings
 - University and agency websites
- Communication is key!
